Items

Corrugated cardboard

Scissors or craft knife

Thumbtack, string and pencil

Garden wire

Double-sided tape

Seasonal native foliage
including eucalyptus

Ribbon

Ferrero Rocher

Ferrero Rocher Christmas Wreath – step by step

1. Cut 1 side off a large corrugated cardboard box. Using a thumbtack as a centre point, tied to a pencil and string, trace a large circle (approx. 32cm in diameter). Using the same method and centre point, trace a smaller circle (approx. 24cm in diameter). Repeat on a second piece of cardboard.
2. Cut out the 2 ring shapes and stick together with double-sided tape.
3. Wrap the garden wire around the ring.
4. Stick the Ferrero Rocher to the cardboard using double-sided tape.
5. Carefully insert sprigs of foliage under the wire around the ring, until the cardboard is completely hidden. Ensure the Ferrero Rocher are not covered.
6. Thread ribbon around the finished wreath and hang on a wall, door or in a window. Alternatively, the wreath can be used as a spectacular table centrepiece.
